

Piggy

Time limit: 0.5s **Memory limit:** 32M

A long, long, long time ago, there lived three wise sages who secretly ruled the world and all its inhabitants. Unfortunately, 2 of the sages have since died, and the only one left alive gains his eternal youth by sapping energy from the drawings of piggies. Please draw some piggies so that old sage **Xyene** can stay youthful ☹️.

Input

There is no input.

Output

Output your drawing of the piggy in ASCII art form. Your program should output a rectangle of characters so that there are no more than 1000 rows and 1000 columns.

Your art will be scored based on how brilliant and magnificent it is. During the contest, we may remove AC submissions that we personally think are ugly piggies.

Sample Output

```
(´·ω·`)
